Making a Doctor’s Appointment

This activity contains skill-building activities leading up to the demonstration of Essential Skills tasks at skill levels 1 and 2. It has been built around the unifying theme of Going to the Doctor but the activities and Essential Skills tasks also provide great practice opportunities for learners preparing for volunteer or employment placements. Teachers and facilitators are encouraged to choose the skill-building activities and/or tasks that meet the needs of the learners.

Check out the video before completing the tasks. Choose video or video with subtitles.

1. Tasks

Brent is not feeling well.

Click here to practice a Skill-Building Activity which will prepare you for completing the following task.

Task 1

Brent takes his temperature two times, once yesterday and once today. Is Brent’s temperature getting higher or lower?

Making a Doctor’s Appointment

Brent is getting ready to go to his doctor’s appointment. The bus fare is $2.75.

Click here to practice a Skill-Building Activity which will prepare you for completing the following task.

Task 5 Count out the exact change Brent will need for his bus fare.

Money Math

Brent went to his doctor’s appointment. His doctor gave him a prescription.

Click here to practice a Skill-Building Activity which will prepare you for completing the following task.

Task 6

a) How many tablets should Brent take in one day?

Reading Text

b) Circle the side effects Brent may experience.

Reading Text

Uptown Pharmacy
Bookner, Brent
VICODIN
Take 1 Tablet 3 Times a Day
30 tablets

Take with food or milk. May cause drowsiness or dizziness.
2. Answer Key

Task 1
Brent takes his temperature two times, once yesterday and once today. Is Brent’s temperature getting higher or lower?

Answer  higher

Check page 8 for one way to get this answer.

Task 2
Find the phone number for Brent’s doctor using the telephone book or the Internet.

Answer  Answers will vary depending on the information provided by the teacher/facilitator.

Check page 9 for one way to get this answer.

Task 3
What should Brent say when he calls the doctor’s office? When you are ready, record your response.

Answer  Answers will vary. Possible answer

“Hi, my name is Brent Bookner. I haven’t been feeling well for two days and I would like to make an appointment with my doctor. I feel tired and my throat is sore. I also have a headache.”

Check page 10 for one way to get this answer.

**Oral Communication ②**

**Document Use ①**
Task 5  
Count out the exact change Brent will need for his bus fare.

Answer  
A combination of coins that add up to $2.75 (one way bus fare). Note that Brent needs bus fare to go to the doctor and return from the doctor.

☑ Check page 13 for one way to get this answer.

Task 6  
a) How many tablets should Brent take in one day?

b) Circle the side effects Brent may experience.

Answer  
a) 3 tablets

b) Circle the following words: drowsiness and dizziness

☑ Check page 14 for one way to get this answer.
3. Answer Steps

Task 1

Brent takes his temperature two times, once yesterday and once today. Is Brent’s temperature getting higher or lower?

Answer higher

One way to get this answer...

1. Locate the numbers on the two thermometers: 37 and 39.
2. Decide that the second number is higher than the first number.
3. Decide that 39 is higher than 37.

Skill Focus Data Analysis ①
Making a Doctor’s Appointment

Task 2

Find the phone number for Brent’s doctor using the telephone book or the Internet.

Answer

Answers will vary depending on the information provided by the teacher/facilitator.

One way to get this answer...

1. Identify what is requested: the phone number for Brent’s doctor.
2. Research the information using the phone book or the Internet.

If the learner used the Internet to find the information ...

a) Using the Internet Browser on the computer (i.e. www.google.ca), enter information into the Internet Search Engine word box (i.e. Canada 411).

b) Click on the Canada 411 website listed.

c) Scan the page for the heading: Find a Business.

d) Enter the doctor’s name in the box.

e) Scan the page for the heading: Location.

f) Enter the doctor’s address in the box.

g) Click on the Find button.

h) Locate the doctor’s name in the search results.

i) Locate the doctor’s phone number.

Making a Doctor’s Appointment

Task 3  What should Brent say when he calls the doctor’s office? When you are ready, record your response.

Answer  Answers will vary. Possible answer [Audio 1]:

“Hi, my name is Brent Bookner. I haven’t been feeling well for two days and I would like to make an appointment with my doctor. I feel tired and my throat is sore. I also have a headache.”

One way to get this answer...

1. Identify key words that provide information on Brent’s sickness.
   Brent has been feeling sick for two days. He is feeling tired, his throat feels sore and he has a headache.

Skill Focus  Oral Communication  ②

Work Habits Demonstrated  Self-advocacy
Task 4 a)  Listen to the message in [Audio 2]. What is the date and time of Brent’s doctor’s appointment?

Answer  October 9th at 10 am

One way to get this answer...

1. The answers are in the message. Listen for the bold words in each question. These are the key words:
   • What is the date and time of Brent’s doctor’s appointment?

Skill Focus  Oral Communication ②
Task 4 b) Enter the information about Brent’s appointment into the calendar. Use this information:

- October 9\textsuperscript{th}
- 10 am
- Appointment with Dr. Smith

One way to get this answer...

1. Identify what is required: enter the date, time and name of the doctor into the calendar.
2. Scan the page for the date: 9.
3. Enter information into the space for the 9\textsuperscript{th} such as “Appointment with Dr. Smith at 10 am.”

Skill Focus

Document Use 1
Task 5

Count out the exact change Brent will need for his bus fare.

Answer

A combination of coins that add up to $2.75 (one way bus fare). Note that Brent needs bus fare to go to the doctor and return from the doctor.

One way to get this answer...

1. Identify what is required: a combination of coins to equal $2.75.
2. Scan the coins provided.
3. Recognize the value of the coins (i.e. a loonie equals $1.00, a toonie equals $2.00, etc.).
4. Set up the problem: x number of coin(s) plus x number of coin(s) equals $2.75.
5. Decide that a combination of coins such as one toonie and three quarters equals $2.75.
6. Decide that the round trip will require another combination of coins equaling $2.75.
7. Repeat steps 2 to 5.

Skill-Building Activities

Sample Skill-Building Activities for Task 1

Teacher/Facilitator Notes
The following skill-building activities can be used to help learners work towards the demonstration of Essential Skills in Task 1. Teachers/facilitators can choose the skill-building activities that meet the needs of the learners.

Sample skill-building activities leading up to the demonstration of Essential Skills in Task 1 are listed below.

Task 1 Skill-Building Activities
- Identify different types of thermometers.
- Read a digital thermometer.
- Identify numbers greater or less than 37.
- Record data in a T-chart over time.

Example 1: Identify different types of thermometers.
Match a picture of a thermometer to a picture of where it would be used.
Making a Doctor’s Appointment

Answer Key:
The digital thermometer measures body temperature. The mercury thermometer measures the air temperature.

Note: The picture with the boy has a thermometer in it to help the learners make a connection between the picture and the answer. Teachers/facilitators may want to use different pictures in this activity based on the needs of the learner.

Example 2: Identify numbers greater than 37 and smaller than 37.
Sort these number tiles below.

23  55  19  36  77

Smaller than 37  

Larger than 37
Answer Key
Sort the number tiles below.

<table>
<thead>
<tr>
<th>Smaller than 37</th>
<th>Larger than 37</th>
</tr>
</thead>
<tbody>
<tr>
<td>19</td>
<td>55</td>
</tr>
<tr>
<td>23</td>
<td>77</td>
</tr>
<tr>
<td>36</td>
<td></td>
</tr>
</tbody>
</table>

**TIP**
Consider using an interactive smart board for large group instruction. The number tiles can be slid to the correct part of the T-chart.

**Note to Teachers/Facilitators:** The normal core body temperature of a healthy, resting adult human being is stated to be at 98.6 degrees Fahrenheit or 37.0 degrees Celsius. Though the body temperature measured on an individual can vary, a healthy human body can maintain a fairly consistent body temperature that is around the mark of 37.0 degrees Celsius unless there are other health considerations that need to be taken into account.

The Essential Skills Task shows two thermometers: one with a reading of 37 degrees Celsius and the other with a reading of 39 degrees Celsius. The task is to identify if the temperature is increasing or decreasing. The learner is not asked to make a judgment about whether or not “Brent” has a fever.

[Click here](#) to Return to Task.
Skill-Building Activities

Sample Skill-Building Activities for Task 2

Teacher/Facilitator Notes
The following skill-building activities can be used to help learners work towards the demonstration of Essential Skills in Task 2. Teachers/facilitators can choose the skill-building activities that meet the needs of the learners.

Sample skill-building activities leading up to the demonstration of Essential Skills in Task 2 are listed below.

Task 2 Skill-Building Activities

- Recognize numbers from 0-9.
- Select the numbers 0-9 from an array of numbers that are arranged as a telephone number and enter them on a calculator.
- Select the numbers 0-9 from an array of numbers that are arranged as a telephone number and enter them on a variety of touch-tone telephones.
- Understand that a local phone number has 10 numbers.
- Match the appropriate symbol (picture, icon) to word and to number.
- Identify the different sections of a personal phone book.
- Identify the different sections of a public phone book.
- Search a phone book or Canada 411 website by subject or name.
Example 1: Recognize numbers from 0-9.
Identify and match numerals from 1-9

Drag the number to the corresponding number on the “hop scotch picture” when given an oral cue. Teacher/ facilitator says “select the number two.” Learner drags the number two to the correct spot on the picture.
Making a Doctor’s Appointment

**Answer Key:** Learner will draw lines, point to the number.

**TIP**
Consider creating a floor mat of the “hop scotch game” and large number cards for learners to match the number to the hop scotch square. Consider using a “roll of the dice” (large manipulative dice, multimedia white board dice) instead of staff oral instructions.

**Note to Teacher/facilitator:** Project the picture on an interactive white board if possible.
Example 2: Understand that a local phone number has 10 numbers.
A phone number has 10 digits.

<table>
<thead>
<tr>
<th>Number</th>
<th>How many digits?</th>
<th>Is this a phone number?</th>
</tr>
</thead>
<tbody>
<tr>
<td>905-335-6677</td>
<td></td>
<td>Yes ☒ No ☒</td>
</tr>
<tr>
<td>416-56-3456</td>
<td></td>
<td>Yes ☒ No ☒</td>
</tr>
<tr>
<td>519-335-3456</td>
<td></td>
<td>Yes ☒ No ☒</td>
</tr>
<tr>
<td>4-656-3456</td>
<td></td>
<td>Yes ☒ No ☒</td>
</tr>
<tr>
<td>905-335-67776</td>
<td></td>
<td>Yes ☒ No ☒</td>
</tr>
<tr>
<td>519-222-1234</td>
<td></td>
<td>Yes ☒ No ☒</td>
</tr>
<tr>
<td>416-234-5678</td>
<td></td>
<td>Yes ☒ No ☒</td>
</tr>
</tbody>
</table>

TIP
Consider projecting on an interactive white board for large group instruction. Use your local area code to make the numbers as familiar as possible.
## Answer Key

<table>

Making a Doctor’s Appointment

Skill-Building Activities

Sample Skill-Building Activities for Task 3

**Teacher/Facilitator Notes**
The following skill-building activities can be used to help learners work towards the demonstration of Essential Skills in Task 3. Teachers/facilitators can choose the skill-building activities that meet the needs of the learners.

Sample skill-building activities leading up to the demonstration of Essential Skills in Task 3 are listed below.

**Task 3 Skill-Building Activities**
- Identify feelings that describe self.
- Identify feelings to describe self as a healthy person.
- Identify feelings to describe self as not feeling healthy.
- Orally convey feelings.
- Answer the “5 W” questions (Who, What, When, Where and Why) about self.

**Example 1:** Identify feelings that describe self.
Listen to short sentences and select a picture that illustrates the feeling. [Listen to](#) or read the sentences. Match the picture of the feeling to the sentence that suggests that feeling.

- You are eating your favourite food.
- You are saying goodbye to your friend.
- You had too much to eat.
- You see your best friend in the room.
- You have been in the sun for a long time.
Answer Key:

You are eating your favourite food.

You are saying goodbye to your friend.

You had too much to eat.

You see your best friend in the room.

You have been in the sun for a long time.

TIP
Before learners can identify feelings related to feeling ill, they will need to identify a variety of feelings and be able to label them. Consider using graphic pictures (as in this activity) or pictures of real people to help the learner label the feelings.

Click here to Return to Task.
Sample Skill-Building Activities for Task 4 a)

**Teacher/Facilitator Notes**
The following skill-building activities can be used to help learners work towards the demonstration of Essential Skills in Task 4 a). Teachers/facilitators can choose the skill-building activities that meet the needs of the learners.

Sample skill-building activities leading up to the demonstration of Essential Skills in Task 4 a) are listed below.

**Task 4 a) Skill-Building Activities**
- Answer “what” questions.
- Listen and record information in written form.
- Identify specific information while listening to a short passage.
- Listen to the teacher/facilitator read short sentences.

**Example 1:** [Listen to] the teacher/facilitator read short sentences. Underline the information about **time** in the sentence.
  
  Can you come to a party on Saturday, October 1st?
  Can you come to my house at 1 pm?
  You start school on September 10th.

**Answer Key**
- Can you come to a party on **Saturday, October 1st**?
- Can you come to my house at **1 pm**?
- You start school on **September 10th**.

**TIP**
After doing this activity, consider using the same sentences but have the learner record the information instead of underlining the information.

[Click here] to Return to Task.
Skill-Building Activities

Sample Skill-Building Activities for Task 4 b)

**Teacher/Facilitator Notes**
The following skill-building activities can be used to help learners work towards the demonstration of Essential Skills in Task 4 b). Teachers/facilitators can choose the skill-building activities that meet the needs of the learners.

Sample skill-building activities leading up to the demonstration of Essential Skills in Task 4 b) are listed below.

**Task 4 b) Skill-Building Activities**
- Identify names of the days in a week and months of the year.
- Write the day of the week and month of the year.
- Read and write the hour of the day.
- Give a relevant title to written words (e.g., doctor’s appointment).
- Understand the layout of calendars.

**Example 1:** Match the description to the type of calendar entry shown below.

<table>
<thead>
<tr>
<th>Description</th>
<th>Type</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dr. Smith</td>
<td>Dental</td>
</tr>
<tr>
<td>Medical Arts Building</td>

</tbody>
</table>

- **Doctor Appointment** - the textual cue is the “Medical Arts Building”
- **Party** - the textual cue is “Birthday Party”
- **Lesson** - the textual cue is “Pool”
- **Job Interview** - the textual cue is “Best Packing Company”
- **Dental** - the textual cue is “Main Dental Clinic”

### TIP
Consider using the same descriptions and titles to enter these events on a calendar.

[Click here](#) to Return to Task.
Skill-Building Activities

Sample Skill-Building Activities for Task 5

Teacher/Facilitator Notes
The following skill-building activities can be used to help learners work towards the demonstration of Essential Skills in Task 5. Teachers/facilitators can choose the skill-building activities that meet the needs of the learners.

Sample skill-building activities leading up to the demonstration of Essential Skills in Task 5 are listed below.

Task 5 Skill-Building Activities
- Sort coins by type.
- Identify money denominations.
- Know that a dime equals 10 cents, for example.
- Counts coins.
- Performs simple addition.
- Identify different combinations of coins for bus fare.

Example 1: Sort coins by type.
Note: This activity would adapt well to an interactive white board if instructor is engaged in group instruction.

Learner is provided with 5 dimes, 10 nickels, 3 quarters, 12 pennies, 2 loonies and 1 toonie.

a) Sort each coin by type.

b) Count the number of each coin and enter the number into the chart.
Making a Doctor’s Appointment

<table>
<thead>
<tr>
<th>Type of Coin</th>
<th>Number of Coins</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1.png" alt="Coin 1" /></td>
<td></td>
</tr>
<tr>
<td><img src="image2.png" alt="Coin 2" /></td>
<td></td>
</tr>
<tr>
<td><img src="image3.png" alt="Coin 3" /></td>
<td></td>
</tr>
<tr>
<td><img src="image4.png" alt="Coin 4" /></td>
<td></td>
</tr>
<tr>
<td><img src="image5.png" alt="Coin 5" /></td>
<td></td>
</tr>
<tr>
<td><img src="image6.png" alt="Coin 6" /></td>
<td></td>
</tr>
</tbody>
</table>
### Answer Key:

<table>
<thead>
<tr>
<th>Type of Coin</th>
<th>Number of Coins</th>
</tr>
</thead>
<tbody>
<tr>
<td>[Penny Image]</td>
<td>12 pennies</td>
</tr>
<tr>
<td>[Nickel Image]</td>
<td>10 nickels</td>
</tr>
<tr>
<td>[Dime Image]</td>
<td>5 dimes</td>
</tr>
<tr>
<td>[Quarter Image]</td>
<td>3 quarters</td>
</tr>
<tr>
<td>[Loonie Image]</td>
<td>2 loonies</td>
</tr>
<tr>
<td>[Toonie Image]</td>
<td>1 toonie</td>
</tr>
</tbody>
</table>

**Note to Teacher/Facilitator:** Provide loonies and quarters for learners to complete Task 5. The bus fare in the task is $2.75. To increase the complexity of this task, provide learners with a pile of assorted coins.

**Additional Task Suggestion:**
An additional sample Essential Skills task could be to “Read a bus schedule to find out which bus will get Brent to his appointment on time.” The complexity of this task depends on the bus schedule that you select. Generally, this type of Document Use task would be at a level 2.

[Click here](#) to Return to Task.
Skill-Building Activities

Sample Skill-Building Activities for Task 6

**Teacher/Facilitator Notes**
The following skill-building activities can be used to help learners work towards the demonstration of Essential Skills in Task 6. Teachers/facilitators can choose the skill-building activities that meet the needs of the learners.

Sample skill-building activities leading up to the demonstration of Essential Skills in Task 6 are listed below.

**Task 6 Skill-Building Activities**
- Locate specific text on a form.
- Identify the “headings” on a prescription form.
- Read abbreviations on a prescription form.

**Example 1:** Identify the “headings” on a prescription form.

<table>
<thead>

Making a Doctor’s Appointment

Skill-Building Activities:
- Identify emotions describing self
- Identify feelings to describe self as a healthy person
- Identify feelings to describe self as not feeling healthy
- Orally convey feelings
- Answer “5 W” questions about self.

ES Task:
Brent calls his doctor to make an appointment. He is feeling tired, his throat feels sore and he has a headache. What should Brent say when he calls the doctor? When you are ready, record your response.

Oral Communication

ES Task:
The doctor’s office calls back and leaves a message for Brent. Listen to the message. What is the date and time of Brent’s doctor’s appointment?

Oral Communication

ES Task:
Brent takes his temperature two times. Is Brent’s temperature getting higher or lower?

Data Analysis

ES Task:
Brent is getting ready to go to his doctor’s appointment. The bus fare is $2.75. Count out the exact change Brent will need for his bus fare.

Money Math

- **Essential Skills Task**
- **Curriculum Code**

*K refers to non-credit courses developed by school boards.
The course and curriculum expectations linked to each Essential Skills task are shown below. Sample skill-building activities have also been identified.

Students who meet the curriculum expectations below will also have demonstrated the Essential Skills at the level indicated. If students do not meet the curriculum expectations below, teachers can prepare students by scaffolding learning. Begin where students are: with the Skill-Building Activities or Essential Skills Tasks.

#### Skill-Building Activities

- Identify emotions describing self
- Identify feelings to describe self as a healthy person
- Identify feelings to describe self as not feeling healthy
- Orally convey feelings
- Answer “5 W” questions about self.
## Task 4
The doctor’s office calls back and leaves a message for Brent.

**a)** Listen to the message in **Audio 2**. What is the date and time of Brent’s doctor’s appointment?

**Oral Communication**

- **DLTV.01** – use listening skills to participate in formal and informal classroom discussions;
- **DLT1.03** – listen for specific purposes (e.g., to follow oral instructions, to receive information, to detect bias, to appreciate a work).

**b)** Enter the information about Brent’s appointment into the calendar. Use this information:
- October 9th
- 10 am
- Appointment with Dr. Smith

**Document Use**

- **DRV2.02** – be familiar with text forms commonly used in everyday life and in the workplace (e.g., maps, memos, schedules, websites, voting ballots, surveys, billboards, flyers)

## Task 5
Brent is getting ready to go to his doctor’s appointment. The bus fare is $2.75. Count out the exact change Brent will need for his bus fare.

**Money Math**

- **DMSV.01** – interpret, write, and round decimal numbers with understanding in everyday money situations;
- **DMS1.10** – identify different combinations of coins and bills that would result in a given amount of money (e.g., *What are possible ways to make $27.48, using coins and bills?*);
### Essential Skills Tasks

**Task 6**

Brent went to his doctor’s appointment. His doctor gave him a prescription. Look at the prescription.

a) How many tablets should Brent take in one day?

**Reading Text**

**Measurement and Calculation**

b) Circle the side effects Brent may experience.

**Reading Text**

### Skills-Building Activities

- Locate specific text on a form
- Identify the “headings” on a prescription form
- Read abbreviations on a prescription form
